PROFILE SUMMARY

Final-year B.Sc. Computer Technology student and passionate Frontend Developer with a keen eye for building engaging, user-friendly interfaces and a strong foundation in modern JavaScript frameworks. Experienced in translating designs into responsive, accessible, and performant web applications, writing clean and well-documented code, and collaborating closely with designers to ensure strong usability across every environment. Comfortable with AI-assisted (vibe coding) workflows to prototype and ship UI faster. Looking to join a dynamic team, take on new responsibilities, and deliver production-ready applications with maximum impact.

EXPERIENCE

Web Development Intern
Internship
- Built responsive web interfaces using HTML, CSS, and JavaScript, translating designs into pixel-accurate UI.
- Collaborated with senior developers on React-based projects and contributed reusable UI components.
- Used Git and GitHub for version control within an agile team workflow.

Frontend Developer
Freelance
- Designed and developed responsive landing pages and small business websites for clients.
- Optimized pages for fast load times, cross-browser consistency, and mobile-first responsiveness.

EDUCATION

B.Sc. Computer Technology - Nandha Arts and Science College
2024 - 2027 (Final Year, Expected 2027)

TECHNICAL SKILLS

Core: HTML5, CSS3, JavaScript (ES6+), TypeScript
Frameworks & Libraries: React.js, Vite, Tailwind CSS, Framer Motion
UI/UX: Figma, Responsive Design, Material Design 3, UI/UX Design, Cross-Browser Compatibility
API Integration: REST APIs, JWT Authentication, Firebase
AI-Assisted Development: Vibe Coding, Claude, GitHub Copilot, Prompt Engineering, Rapid Prototyping
Tools: Git & GitHub, VS Code, Postman, Docker, CI/CD

ADDITIONAL INFORMATION

Soft Skills: Critical Thinking, Communication Skills, Teamwork, Drawing
Languages Known: Tamil, English

PROJECTS

MediScan AI
React, Tailwind CSS, Framer Motion, REST APIs
- Built the entire responsive frontend for an AI-powered medicine analysis platform, including image upload and results UI.
- Designed clean, accessible screens to display usage information, safety warnings, and dosage guidance.
- Integrated the UI with backend REST APIs and handled JWT-based authenticated views.

SafeDrive AI
React, Tailwind CSS, Chart.js-style visualizations
- Developed a real-time dashboard UI for GPS live tracking, trip monitoring, and safety alerts.
- Built responsive, data-dense views for fleet management with smooth state updates.
- Focused on clarity and usability for time-critical alert and monitoring screens.

E-Commerce Web App
React, Vite, Tailwind CSS, Framer Motion
- Built a fully responsive storefront UI with product listings, cart, and checkout flow.
- Used Framer Motion for smooth micro-interactions and page transitions.
- Connected the frontend to a JWT-secured Express.js/MySQL backend for products and orders.

CERTIFICATIONS & ACHIEVEMENTS

- React Developer Certification - Meta / Coursera
- JavaScript Algorithms & Data Structures - freeCodeCamp
- College Hackathon - Annual Tech Fest
